	20 minutes	48 hours

ACCESSORIES:

NTMBAR MiniBio Auto Reader Incubator
 C-TMBAR-20 Mini Bio Auto-Reader Incubator Starter Kit

Description:

The WTL198-0072 is a real-time automatic reader for biological indicators. It is designed for use with Tuttnauer Ultra Rapid Readout biological indicators. The device provides a clear, color-coded result (green for pass, red for fail) and can be used in a laboratory or clinical setting. It is compatible with both gravity displacement and vacuum-assisted autoclave cycles.

Includes:

The WTL198-0072 includes:
 C-TMBAR-20 (the Kit) also includes:
 WTL198-0072 Gravity/Vacuum Ultra Rapid biological indicator (quantity: 50)

Features:

The WTL198-0072 features a large, color LCD display for easy viewing of test results. It has a built-in printer for printing out test results. The device is designed for ease of use, with a simple control panel and a clear lid. It is also designed for safety, with a lockout feature to prevent accidental operation. The WTL198-0072 is a reliable and accurate real-time automatic reader for biological indicators.
