

FILTER TECHNOLOGY

# ELIPSE P100

## SOURCE CONTROL

C-EP100-SM

C-EP100-ML

**NIOSH**  
APPROVED

## PROTECTS AGAINST

Bacteria and virus (such as Covid 19) at 99,99%(BFE)  
Particulates >0.3 microns (Minimum Efficiency of 99.97%)

## NO EXHALATION VALVE, PREVENTING CROSS CONTAMINATION FROM THE WEARER

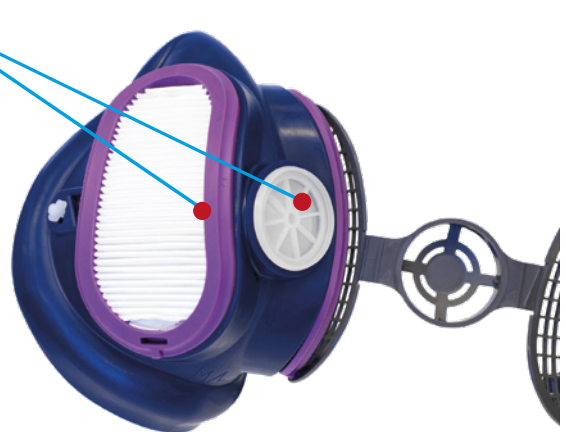

### Light and Compact

Weight is 4.5 oz, with unique and low profile filters, designed to fit the contours of your face and give the user a wide field of vision

### Great comfort

Thanks to a soft medical grade thermoplastic elastomer that is hypoallergenic (without latex, silicone, and odor-free)

### Provide cost savings

Since ELIPSE respirators are designed for repeated cleaning and decontamination, contrarily to disposable respirators
