AFTER 1 WEEK OF COMPOSTING

AFTER 2 WEEKS OF COMPOSTING

AFTER 3 WEEKS OF COMPOSTING

14 billion

pounds (68 kg) of waste are dumped into the ocean every year. Most of it is plastic.

200 million

tons of plastic are produced by manufacturers per year. Less than 3.5 is recycled, meaning every year we add 193 million tons of plastic to the world - permanently.

35,500 days

before a piece of SMS Non-Woven cassette wrap will be fully decomposed - WOW that is a bit scary!

How can YOU make a difference?
