

Steris Amsco Century Medium Series- Fully Refurbished

Amsco Century Medium Steam Sterilizers are designed for fast, efficient sterilization of heat- and moisture-stable materials in central sterilization departments. Their state-of-the-art features help you achieve greater throughput and lower operating costs than ever before. From a practical standpoint, you won't find more options and configurations, facilitating system customization to meet your specific requirements. You also get cost-effectiveness that lasts. Superior durability for reduced downtime and exceptional longevity. Features that cut costs and save resources. And design characteristics that promote personnel efficiency.

Features:

- Increased Productivity and Efficiency
- User-friendly and ergonomic
- Durability and reliability
- Efficient and economical
- Different configurations to fit the volume and workflow requirements
- Top quality construction
- Automatic utilities shutdown (which conserve energy)
- Less costly maintenance
- Designed for minimal environmental impact
- Manual or automatic door
- Vertical or horizontal power sliding doors
- Stand-alone steam generator (external steam generator)
- Chamber material and doors 316L stainless steel
- Chamber constructed from a single piece of 316L stainless steel for maximum strength and corrosion resistance
- Wide chamber that accommodates the largest containers
- Intuitive, one-touch control
- Highly visible cycle countdown
- Up to 12 programmable cycles
- Audible Signals (adjustable) for touch pad, end-of-cycle signals and alarm signal
- Electronic water saving control

Why purchase Duraline Reconditioned Biomedical Equipment?

Duraline thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
