

# Self-Seal Nylon Pouches

## For Dry Heat Sterilization

For proven performance in critical healthcare environments, this packaging leads the way in the development and production of high temperature sterilization packaging products for medical and dental facilities.

When superior puncture, abrasion or high heat resistance is critical, this nylon film is the clear choice. Perfectly suited for clean room film applications, this film is made from FDA approved grade A resins and are produced with adherence to special conditions to sure these films meet class 100 standards

Polyamide sterilization bags and films are:

- specifically designed for steam and dry heat autoclaves
- extremely durable to protect sensitive medical instruments from sterilization through use
- available in tube stock or pouches for greater flexibility

### Features & Capabilities

- Withstands heat up to 400°F.
- High Puncture, Abrasion and Chemical Resistance
- Transparent films for easy visibility
- Available in lay flat tube stock in widths as narrow as 2"
- Pouch sizes available from 2" to 54" wide
- Uses FDA approved Grade resins
- Meets class 100 standards
- This packaging has received FDA 510(k) Class Medical Device Registration

# Self-Seal Nylon Pouches

## for Dry Heat Sterilization Pouches / Bags

- For use with static air or forced air dry heat processes up to 420F
- For use with static air or forced air dry heat processes up to 420F
- Pouches have built-in adhesive tape which eliminates the need for a heat sealer
- Notched pouch for ease of opening after processing
- Complimentary external chemical indicators included
- BUY IN BULK – AND **SAVE!**
- 7 sizes to choose from
- Order by 3PM EST for same day shipping
- Simple to order! Call, fax, email, or buy online

Stock No.	Size (W x H)	Quantity/Box/Case:	1-9 Boxes	10-24	25+
