

## HEALTHCARE LINE

### 5075HSG

160 Liter, Free-Standing, Pre & Post Vacuum  
Healthcare Sterilizer

The ideal pre & post vacuum autoclave for Healthcare.

# Healthcare Line

## Model 5075HSG

The 5075HSG is a fully featured 160 liter stand-alone pre & post vacuum autoclave. Many years of expertise with industrial sterilization technology have been packaged into the 5075 autoclave models to make them ideal Class B healthcare autoclaves.

The 5075HSG is a free-standing, cabinet enclosed unit with a wheel mounted design to facilitate installation. They are as simple and easy to use as any Tuttnauer tabletop autoclave.

The 5075HSG comes with a built-in 20kW carbon steel electric steam generator for fast sterilization cycles. The generator also comes standard with an automatic blow down feature.

The 5075HSG autoclave chamber is surrounded by a coiled jacket that increases overall cycle speed and performance by maintaining chamber warmth when in stand-by mode. The coiled jacket also ensures uniform heat distribution throughout the chamber. The system provides a deep and powerful vacuum due to a high volume water-ring vacuum pump for reliable and complete air removal. The 5075HSG offers all the features and reliability of a large capacity autoclave at a fraction of the size and cost.

## Controls & Monitoring

The 5075HSG is equipped with the BacSoft control system utilizing a multicolor screen and touch pad. The sterilizer comes standard with FDA cleared cycles to sterilize surgical instruments, utensils, gowns, wrapped/unwrapped goods and other healthcare instruments and supplies. A built in printer is also included, providing real-time cycle data including the pressure, temperature, change of phase, alarms and a summary at the end of the cycle.

### Innovative Multi-Color Display

A bright multicolor LCD panel for easy reading, even from a distance.

- Wheel rotates to indicate an active cycle
- Multiple access levels for added security

### Easy Pad

Consists of 3 key buttons allowing the user to browse with ease through the pre-programmed sterilization cycles and user directories

### USB Port and Ethernet Port

For transferring cycle parameters of the last 100 cycles

### Printer

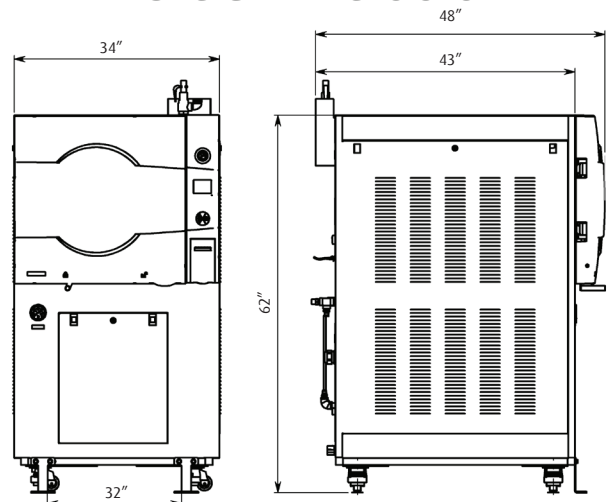

Documents detailed history of each cycle

## Autoclave Features

- High volume water-ring vacuum pump for fast and efficient air removal
- Stand-by heating mode keeps the autoclave warm and ready for use
- 316L grade stainless steel chamber and door with electro-polish finish
- Double locking safety device prevents door from opening at high pressure and high temperature
- Control lock-out switch prevents starting a cycle if door is not properly locked
- Built-in alpha-numeric printer
- Mounted on wheels for ease of installation
- Our high quality healthcare autoclaves comply with the strictest international directives, standards and guidelines, including AAMI, UL, FDA, CE, ASME, CSA, MDSAP, Health Canada.

## Overall Dimensions

## Specifications

Specifications	5075HSG (Includes Built-In Generator)
Chamber Dimensions Ø x L (inches)	19.5" x 29.5"
Chamber Volume (Liters)	160
No. of Shelves	2
Shelf Dimensions W x H x L (inches)	Small: 11.9" x 0.8" x 27.6" Large: 18.6" x 0.8" x 27.6"
Electrical Requirements (Control System, Vacuum Pump)	1-Phase, 120V, 20 AMP
Electrical Requirements ( 20kW Generator )	3-Phase, 208V, 56 AMP (Draw)
	3-Phase, 480V, 25 AMP (Draw)
Plant Steam Supply	N/A
Cold Water Supply *Contact Tuttnauer for recommended water quality	3/4" NPT
Building Drain *Floor Sink Recommended	2"
Heat Load to Room (Btu/Hr)	4750
Overall Dimensions WxHxL (Inches)	34" x 62" x 48"
Autoclave Weight (Lbs)	935

\* Contact a Tuttnauer representative to obtain certified drawings.

\* Tuttnauer can provide a reverse osmosis water treatment system where "hard water" conditions exist.

## Your Sterilization & Infection Control Partners

For over 95 years, Tuttnauer's sterilization and infection control products have been trusted by hospitals, universities, research institutes, clinics and laboratories throughout the world. Supplying a range of top-quality products to over 140 countries, Tuttnauer has earned global recognition as a leader in sterilization and infection control.

*Authorized Tuttnauer Distributor Since 1992*

39 Western Highway, West Nyack, NY 10994
