

Clean to Sterile Solutions

Since 1991

EDITION 18

Welcome!

Thank you for your interest in Duraline BioSystems. Duraline BioSystems, Inc. offers the complete product line for all your clean-to-sterile needs. With firsthand product knowledge, years of technical experience and excellent sources for quality equipment, parts and consumables, Duraline BioSystems, Inc. has all the resources required, and is a leader in the sterilization industry.

Customers may contact our representatives for technical or sales assistance from Monday-Friday, 6 a.m. through 6 p.m. EST. We guarantee your 100% satisfaction on all our products and services. Join the thousands that rely on Duraline BioSystems and contact us today!

What Duraline is known for.

We are known for our experience in the industry since 1991 and for the quality of our refurbished sterilizers and sterilizer repair services. We are passionate about the clean-to-sterile process, knowing the importance of using quality products and equipment to achieve 100% satisfactory results.

Why Duraline?

-  **Experience since 1991.**
-  **Quality workmanship. Guaranteed.**
-  **Order by 3pm, ship same-day.**
-  **Emergency Repair Services, for when you need us. -**
-  **Real Customer Service team, from 6am - 6pm.**
-  **Custom and cost-effective solutions. Every time.**

GOOGLE REVIEWS. Review us online today!

Ted
"As a dental equipment technician, Duraline is a great resource for me. They do an incredible job with fixing and refurbishing any sterilizer. Their staff is a pleasure to deal with. I would recommend them to any dentist office."

Paul
"Dropped off my Statim 2000 for servicing and it runs as if it was brand new now. Super quiet again. Pricing was very reasonable and they used all OEM parts. Very happy with their work. Would recommend to everyone."

Marilyn
"Duraline Systems is a top-notch company. They were super efficient and so professional. They were constantly in contact with us to make sure our purchase went smoothly as well as turning in our old autoclave for a credit. So nice to work with such a company in today's world!"

Donnie
"Dealing with Duraline was a pleasant experience all the way around. We spoke with Mr. Walker, and he got us set up with the best solution for our money. We saved a lot of dollars by going with a refurbished unit, and it works great! The shipping was fast and well packaged. The free cleaner and pouches was an added bonus for sure. They also accepted our ancient broken autoclave as a trade in for a discount of the sales price of the refurbished unit we went with. Awesome! Thanks Duraline. I look forward to doing more business in the future."

Here's What Our Customers Say About Us...

Elevated Piercing
"We ordered an autoclave and when they didn't have the one we ordered in stock, they gave us a great deal on an upgrade! We are very happy with our purchase. Customer service was fast and courteous. Shipping was prompt and the autoclave was well packaged. Thank you Duraline Biosystems. We will be doing business again."

Vicki
"We purchased a refurbished OCM autoclave last month from Duraline for our veterinary hospital. They gave us a rebate on our old machine and the replacement unit looks and operates like its brand new. A very easy, money saving purchase."

CLEANING TO PACKAGING

INSTRUMENT CARE USING EMPOWER AND METRILUBE PRECLEAN, LUBRICATE AND MONITOR YOUR HIGH-LEVEL DISINFECT/STERILIZE

Preclean...

using EmPower® Foam™

1. Place items in clearly marked decontamination area.
2. Thoroughly spray EmPower® Foam™ directly onto instruments to be cleaned.
3. Allow instruments to remain covered with enzymatic foam to dissolve bio-burden.
4. Reapply as needed to keep instruments moist.
5. Rinse instruments thoroughly.

using EmPower® Enzymatic Detergent

1. Place items in clearly marked decontamination area.
2. Dilute EmPower® Enzymatic Detergent 1 fluid ounce (1 pump) per gallon of water.
3. Immerse instruments until soil is dissolved and removed. If matter is dried on, soak longer until visibly clean.
4. Manually clean with brush or irrigate lumens under the solution level.
5. Rinse instruments thoroughly.
6. Air-dry or dry with clean towel.
7. Inspect instruments. If instruments are not clean, repeat steps.

Spray EmPower® Foam™ to conveniently remove organic debris while reducing splashes and messy spills.

Use EmPower® enzymatic detergent to effectively remove organic debris in both manual and automated reprocessing systems.

Use MetriLube® Spray or concentrate for lubricating instruments to help prevent spotting, staining, rusting and freezing up.

Lubricate...

using MetriLube® Instrument Lubricant Ready-to-Use/Concentrate

1. Apply MetriLube® directly onto clean instruments.
2. Wipe dry with clean towel.

High-Level Disinfect/Sterilize...

using MetriCide® and MetriTest™ High-Level Disinfectant/Sterilant

1. Prepare instruments for sterilization or high-level disinfection.
2. Sterilize or high-level disinfect according to the manufacturer's labels.

Verify/Monitor...

using DISINTEK™ and MetriTest™ monitoring strips

Using monitoring strips specific to each solution. Dip the strip into the soaking tray to ensure that the concentration is at the minimum effective concentration (MEC) for that solution.

Follow manufacturer's instructions to see how long to hold strip in solution.

60-90 seconds later, compare color of indicator pad to the color chart.

Storage...

Store instruments according to your healthcare system's policies and regulations. (See STERILINE cabinets, pages 46-47)

Note: Follow standard precautions for personal protection as appropriate.

EmPower® Foam™ Enzymatic Spray

EmPower® Foam™ Spray		1+ CASE
C-EPF-24	EmPower® Foam™ - 24 oz. Spray Bottle, 12/case (MFR# 10-4224)	\$348.00/case

EmPower® Foam™ propels thick foam of protease enzymes. Effectively cleans away blood, tissue, mucous and other protein-rich body fluids. Foaming spray is ideal for use in surgery, central processing, operating room and other departments where instrument cleaning is not immediately available.

KEY FEATURES & BENEFITS:

- Ideal for instruments with presence of moderate to heavy organic debris
- Designed for manual reprocessing
- Ready to use in a convenient sprayer
- Thick foam reduces splashing and spills
- Covers instruments to quickly break down bio-burden

EmPower® Dual-Enzymatic Detergent

EmPower® Detergent Solution		1+ CASE
C-EPS-G	EmPower® Solution, 1 Gallon Bottle, 4 gallons/case (MFR# 10-4100)	\$199.00/case

EmPower® is a fresh scented, detergent cleaner containing two protease enzymes that offer the broadest cleaning action on a variety of protein soils. Inclusion of surfactants provides additional cleaning on carbohydrates, lipid and protein soils. Works fast to remove blood, tissue, mucous and other protein-rich body fluids from instruments. Non-corrosive to metals.

KEY FEATURES & BENEFITS:

- Dual-enzymatic detergent cleaner
- Low-foaming formula is ideal for use in automated machines
- Less corrosive than distilled water
- Each case includes one pump nozzle that dispenses 1 oz. of fluid each pump.
- One gallon produces 128 gallons of solution (1 oz. of empower, to each gallon of distilled water)

Ultrasonic Cleaner Tablets

Tuttnauer Ultrasonic Tablets		1-2 BOXES	3-5 BOXES	6+ BOXES
C-TCS	Clean&Simple Ultrasonic Cleaner Solution, 64 Tablets/bx	\$79.00/bx	\$75.05/bx	\$71.10/bx

Clean & Simple is an ultrasonic/enzymatic solution dispensed in a unique tablet form. Drop 2 tablets into your ultrasonic tank already filled with tap water and the tablets will dissolve in about a minute. This is a non-ionic solution which is non-corrosive, non-toxic, biodegradable and non-caustic. No bulky storage or pre-mixing required. Eliminates handling of heavy 1 gallon containers.

MetriLube® Instrument Lubricant

MetriLube® Lubricant Spray & Refill		1+ CASES
C-ML-24	MetriLube® Spray, 24 oz., 12 bottles/case (MFR# 10-3425)	\$169.00/case
C-ML-G	MetriLube®, 1 gallon refill, 4 gallons/case (MFR# 10-3400)	\$199.00/case

MetriLube® is a concentrated oil-based instrument lubricant which coats metal instruments to prevent corrosion and help hinges work freely. Available in a 24 oz spray for manual use or in various gallon sizes for automated reprocessors.

- KEY FEATURES & BENEFITS:**
- Instrument lubricant concentrate
 - Extends life of instruments
 - Anti-corrosive
 - Non-greasy and silicone-free
 - Ideal for use in manual reprocessing or in automated systems
 - One gallon produces 15 gallons of MetriLube spray

Clear Instrument Tray System

Clear Instrument Trays		1-2 EACH	3+ EACH
C-CST1.6	Small 4" x 6½" x 7" (1.6 qt)	\$59.00/ea	\$53.10/ea
C-CST6.3	Large 4" x 11" x 13" (6.3 qt)	\$89.00/ea	\$80.10/ea
C-CST20.6	Extra Large 6" x 12½" x 21" (20.6 qt)	\$129.00/ea	\$116.10/ea

These instrument trays are clear, completely see-thru hard non-toxic polycarbonate material that include strainers and covers. Use for soaking and/or storage and transporting of instruments and devices. Special labels may be used to identify the contents and are easy peel-off for changing expiration dates and other information.

Self-Straining Instrument Soaking Trays

Self-Straining Instrument Soaking Trays		1-2 EACH	3+ EACH
C-STH10	Large 10" x 5" x 2½" (LxWxD)	\$99.00/ea	\$89.10/ea

The strainer lifts automatically when lid is opened. Each tray comes with it's own counter, which can be reset for each change of HLD solution! Recommended for use with glutaraldehyde solutions (not compatible with phenolic solutions). Available in 2 sizes.

Instrument Cleaning Brushes

Nylon & Stainless Steel Brushes		1+ PACKS
C-NB-Narrow	Nylon Cleaning Brush, 7" long, 3/pack	\$39.00/pack
C-SB-Narrow	Stainless Steel Brush, 7" long, 3/pack	\$35.00/pack
C-WB-Wide	Nylon Cleaning Brush, 3"x 3" white, 3/pack	\$105.00/pack

These brushes are intended to aid in the general cleaning of surgical instruments, devices and equipment. Brushes are latex free and require no special handling. **Nylon Bristles:** 7" long, ideal for cleaning hard to reach places without scratching or harming delicate instrument surfaces. If desired, they may be sterilized. **Stainless Steel Bristles:** 7" long, ideal for cleaning rasps, files, and burs. Bonus: Can be sterilized in a regular autoclave cycle! **White Nylon Bristles:** Surface cleaning brush: 3"x 3" brush head, 4½" plastic handle, 2" white medical grade nylon bristles. For Use on sinks, autoclaves, ultrasonic cleaners, bowls, basins, and more!

High-Level 14-Day Disinfectant & Sterilant

MetriCide® 14-Day Disinfectant		1+ CASES
C-MC14-G	MetriCide® 14-Day, 1 gallon (3.8L), 4 gallons/case (MFR# 11-1400)	\$109.00/case

MetriCide® is a 2.6% buffered glutaraldehyde that can be used and reused as a sterilant and high-level disinfectant on immerseable, lensed and delicate instruments for up to 14 days.

- KEY FEATURES & BENEFITS:**
- Recommended for lensed instruments such as flexible and/or rigid scopes
 - Compatible with heat-sensitive medical equipment and instrumentation
 - Contains no surfactants
 - No dilution required

MetriTest™ 14-Day GTA 1.5% Test Strips

MetriTest™ 14 Day Indicator Test Strips		1-2 BOXES	3+ BOXES
C-MC14-TEST	1.5% Indicator Strips, 60/bottle, 2 btls/bx	\$219.00/bx	\$197.10/bx

MetriCide® 14 must maintain the minimum effective concentration (MEC) level of 1.5% glutaraldehyde or greater during the 14-day use life to effectively sterilize and high-level disinfect.

FOR USE IN:
MetriCide® 14-Day Disinfectant Solution

PASS - the indicator pad is purple
FAIL - the indicator pad displays yellow areas

Test Time: 60 Seconds

High-Level 28-Day Disinfectant & Sterilant

MetriCide® 28-Day Disinfectant		1+ CASE
C-MC28-G	28-Day MetriCide®, 1 gallon (3.8L), 4 gallons/case (MFR# 11-2800)	\$129.00/case

MetriCide® 28 is a long-life, 2.5% buffered glutaraldehyde, that can be used and reused as a sterilant and high-level disinfectant for up to 28 days.

- KEY FEATURES & BENEFITS:**
- Recommended for immerseable and heat-sensitive equipment and instruments
 - Contains a surfactant
 - No dilution required

MetriTest™ GTA 1.8% Test Strips

MetriTest™ Indicator Tests		1-2 BOXES	3+ BOXES
C-MC28-TEST	1.8% Indicator Strips, 60/bottle, 2 btls/bx	\$219.00/bx	\$197.10/bx

MetriCide® 28 must maintain the minimum effective concentration (MEC) level of 1.8% glutaraldehyde or greater during the 28-day use life to effectively sterilize and high-level disinfect.

FOR USE IN:
MetriCide® 28-Day Solution

PASS - the indicator pad is purple
FAIL - the indicator pad displays yellow areas

Test Time: 60 Seconds

Economical Ultrasonic Cleaner

**Special Price!
ONLY \$129.00**

1.4 Litre Tank
DS1.4L

Removable Mesh Tray

Inside Unit

Ultrasonic Cleaners		Tank Size (LxWxH)	Watts	1 EACH
DS1.4L	1.4L Tank (1.5 Quarts)	6½" x 5½" x 2½"	60W	\$129.00/ea

Our 1.4L Digital Ultrasonic Cleaner system uses the process of "cavitation" in cleaning items which is more efficient and have much shorter cleaning time.

KEY FEATURES INCLUDE:

- Comparable with other brands
- 1 Year Warranty
- Built-in programmer that easily allows you to adjust 5 preset cycles
- Super quiet, solid-state circuitry
- Isolated-circuit design keeps water away from circuit for enhanced safety
- Removable mesh tray to prevent damage as well as positioning the item within the optimal cleaning zone of the tank.
- High power transducer for superior cleaning results.

DURASonic Ultrasonic Cleaners

DS25L	25L Tank (7.5 Gallons)	18½" x 11½" x 8"	1,000W	\$1,799.00/ea

KEY FEATURES INCLUDE:

- Internal basket
- 2 year warranty
- Digital ultrasonic timer
- 110V, 40 Khz
- Engineered, designed, and manufactured in the U.S.A.
- Temperature regulated heating element for best cleaning results
- Reliable Industrial-Grade Transducer

WashChecks® U Monitors - for your Ultrasonic Cleaner

Wash-Checks® U Monitors		1-2 EACH	3+ EACH
C-WCUC	50 Monitors/bag	\$89.00/bg	\$80.10/bg
C-WCH	Wash-Checks Holder, 1 Each	\$29.00/ea	\$26.10/ea

Disposable ultrasonic cleaning monitors & reusable holders for monitoring the ultrasonic cleaning process.

Check the effectiveness of the wash process in your ultrasonic cleaner with a consistent monitor on a routine basis. When cleaning conditions are effective, test soil on monitor is dissolved.

Multi-parameter test

The presence of a large amount of blue test soil remaining on the monitor reflects a serious deficiency in the ultrasonic cleaning efficiency. It tests the effectiveness of time, temperature and the detergent.

Use with reusable Wash-Checks holder

Save money by using the same reusable holder for both the Wash-Checks® and Wash-Checks® U. Holder acts as a hinged instrument, measuring impingement.

Save as permanent record

Date and save the actual test in your records, to show your inspector!

Blue indicator will have completely dissolved once proper washing conditions have been met.

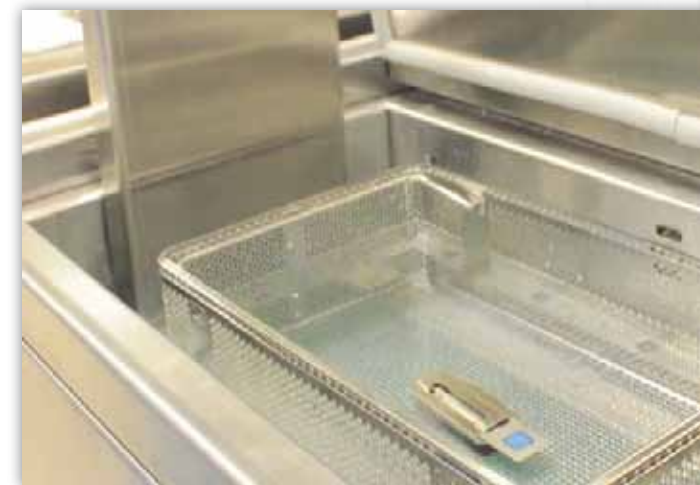

Are You Confident That Your Ultrasonic Cleaner Is Effectively Cleaning Your Instruments?

The WashChecks® U's are inserted in the reusable holder so that the blue square is fully exposed.

For Daily Machine Release: The monitor and holder are placed in the ultrasonic cleaner with cleaning liquid but no instruments with the blue square facing up, and a normal ultrasonic cycle is conducted.

For Load Release: The monitor and holder are placed in the cleaner on top of the instruments with the blue square facing up.

THE ONLY RELIABLE METHOD TO ENSURE THE ULTRASONIC CLEANER IS WORKING ADEQUATELY.

INTERPRETATION GUIDE

Wash-Checks U Ultrasonic Monitor		UNUSED
Wash-Checks U Ultrasonic Monitor		FAILED
Wash-Checks U Ultrasonic Monitor		PASSED

FOR THE PROFESSIONAL.

A more thorough & efficient way to clean.

HYDRIM C61W G4 Instrument Washer

TABLE-TOP

- Chamber volume; can fit 6 full-sized IMS cassettes
- Completely cleans and disinfects 120 instruments in 35 minutes start-to-dry
- 1-year Parts/Labor Warranty

DO YOU KNOW

If Your Instrument Washer is Effectively Cleaning Every Instrument?

WashChecks® Monitors - for your Instrument Washer

WashChecks® Monitors		1-2 EACH	3+ EACH
C-WCWD	100 Monitors/bag	\$169.00/bg	\$152.10/bg
C-WCH	Wash-Checks Holder, 1 Each	\$29.00/ea	\$26.10/ea

Disposable Wash Monitors & Reusable Holders for Monitoring the Wash Process in Washer-Disinfectors

Check your wash/detergent system effectiveness with a consistent monitor on a routine basis. If insufficient time, temperature, detergent concentration, spray arm function or enzyme soak occurs, a RED residue remains.

Test soil is designed to parallel the removal of blood and tissue from surgical instruments. No actual blood components from any source are contained in the test soil.

Use with reusable Wash-Checks® holder. Holder acts as a hinged instrument, measuring impingement.

Third party testing has proven Wash-Checks® to be the most reliable and effective wash monitors in the industry!

Red indicator will have completely dissolved once proper washing conditions have been met.

INTERPRETATION GUIDE

Wash-Checks Red disappears when clean		UNUSED
Wash-Checks Red disappears when clean		FAILED
Wash-Checks Red disappears when clean		FAILED
Wash-Checks Red disappears when clean		FAILED
Wash-Checks Red disappears when clean		FAILED
Wash-Checks Red disappears when clean		PASSED

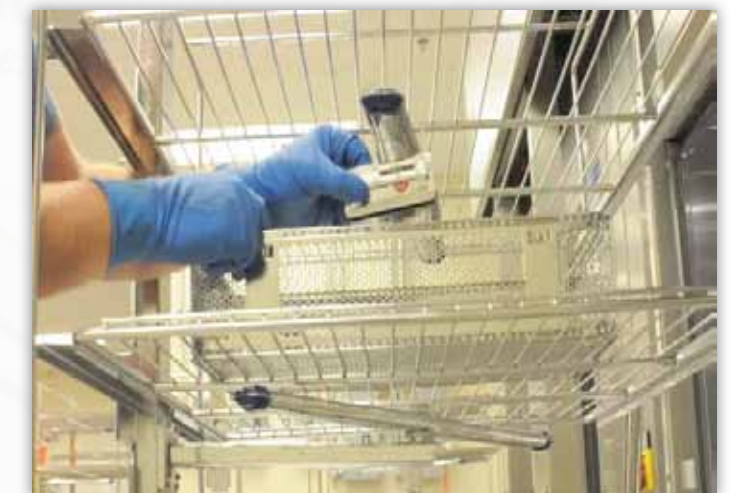

It LOOKS clean.
Is visual examination good enough?

Sometimes not...
And if it's not clean,
it's not sterile.

The test soil (red dot) simulates human blood and tissue debris. When the test is placed in the holder the test soil is half obscured, simulating the joint of a surgical instrument. The removal of all test soil indicates effective cleaning.

THE ONLY RELIABLE METHOD TO ENSURE THE WASHER-DISINFECTOR IS WORKING ADEQUATELY.

Toll Free (877) 561-0500

DID YOU KNOW?

14 billion
pounds (68 kg) of waste are dumped into the ocean every year. Most of it is plastic.

200 million
tons of plastic are produced by manufacturers per year. Less than 3.5 is recycled, meaning every year we add 193 million tons of plastic to the world - permanently.

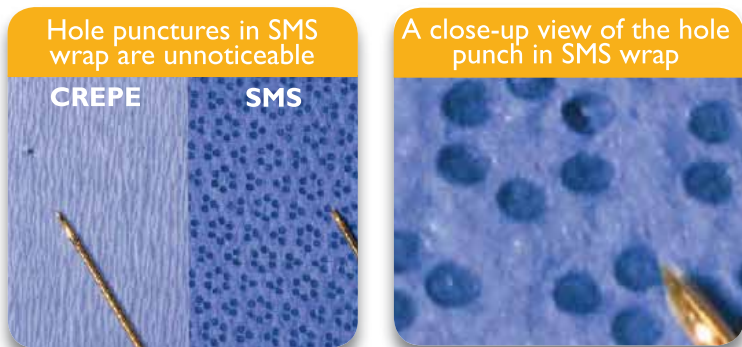

35,500 days
for a SMS non-woven cassette wrap to fully decompose. How many pieces of SMS wrap do you use each day?

HOW CAN YOU MAKE A DIFFERENCE?
make a start by choosing the right wrap >>

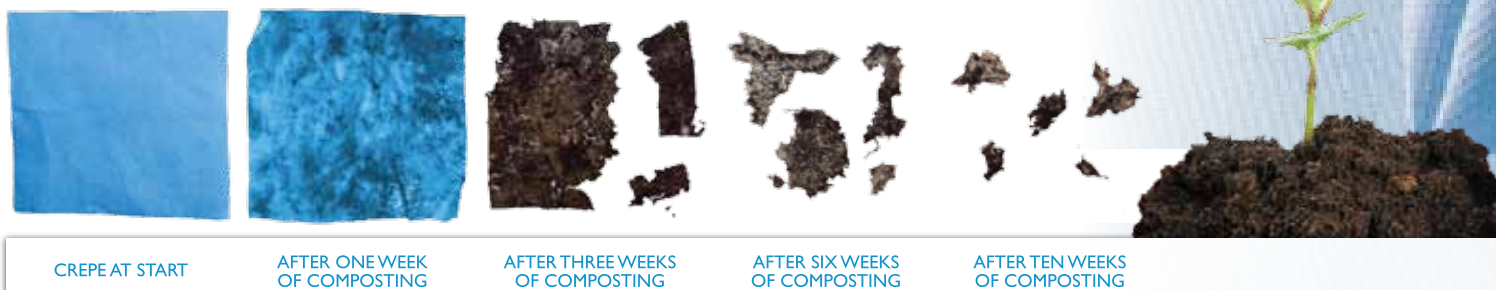

Why Crepe Paper?

- Biodegradable product – FULLY decomposes in only 10 weeks while SMS Wrap takes over 100 years to decompose!
- Easy to detect compromised packaging! Holes or punctures show much clearer on crepe, compared to SMS wrap.
- More cost-effective method of wrapping instruments.
- Minimizes the carbon impact on the environment (carbon compensated for CO2 emissions)
- Renewable and sustainable (Crepe paper is made of cellulose which comes from 30-year old trees. Suppliers of cellulose replace one tree for every tree cut down.)
- Compatible with Steam, EO Gas and Gamma Radiation sterilization processes.

Easily Detect Compromised Packs:

Rapidly Biodegrades:

AdvanCheck Crepe Paper

AdvanCheck Crepe Paper		1-4 BOXES	5+ BOXES
W-CRP12	12" x 12" Crepe Wrap	1,000/bx	\$59.00/bx

W-CRP24	24" x 24" Crepe Wrap	500/bx	\$86.00/bx

Prefer a crisp, thin paper to wrap your cassettes? Our standard crepe paper is the right choice for you. Request your free samples today! Please read the preceding page to see how you can make a difference.

AdvanCheck PREMIUM Crepe Paper

AdvanCheck PREMIUM Crepe Paper		1-4 BOXES	5+ BOXES
W-CRP12-P	12" x 12" PREMIUM Crepe	1,000/bx	\$89.00/bx
W-CRP15-P	15" x 15" PREMIUM Crepe	1,000/bx	\$139.00/bx
W-CRP18-P	18" x 18" PREMIUM Crepe	500/bx	\$96.00/bx
W-CRP20-P	20" x 20" PREMIUM Crepe	500/bx	\$106.00/bx
W-CRP24-P	24" x 24" PREMIUM Crepe	500/bx	\$156.00/bx

Try our thicker, softer crepe paper that almost feels like cloth! PREMIUM Crepe provides a strong tear-resistant barrier of protection.

Please read the preceding page to see how you can make a difference.

AdvanCheck ComboWrap

AdvanCheck ComboWrap		1-4 BOXES	5+ BOXES
W-CW12	12"x12" ComboWrap	400 interleaved sheets/bx (200 sets)	\$76.00/bx
W-CW15	15"x15" ComboWrap	400 interleaved sheets/bx (200 sets)	\$79.00/bx
W-CW18	18"x18" ComboWrap	400 interleaved sheets/bx (200 sets)	\$82.00/bx
W-CW20	20"x20" ComboWrap	300 interleaved sheets/bx (150 sets)	\$66.00/bx
W-CW24	24"x24" ComboWrap	400 interleaved sheets/bx (200 sets)	\$119.00/bx

THE COMBOWRAP SOLUTION:

INNERWRAP: Environmentally-friendly crepe paper for the first layer of wrap which also provides a superior barrier for greater protection of your instruments.

OUTERWRAP: A strong, fluid-resistant, breathable & durable protection of SMS for the second layer of wrap.

WHY COMBOWRAP?

Minimize your impact on our environment! Crepe paper biodegrades in 10 weeks (vs. 100 years for SMS wrap). SMS provides the strong, tear-resistant outer layer SMS and Crepe paper are interleaved throughout the box.

SMS Wrap (outer layer)

Premium Crepe Paper (inner layer)

C-SP1218	12" x 18"	100/box, 10 boxes/cs	\$42.99/box	\$38.69/box	\$36.54/box

Self seal and see through pouch. Internal and external multi-parameter steam process and EtO gas process indicators. Notched to make opening the pouch easier. Ink used in the printing is water based, and non toxic. EO gas and steam indicators. Paper is from European manufacturer, one of the best quality for pouch paper.

Sterilization Tubing

Sterilization Tubing		1-4 ROLLS	5+ ROLLS
C-ST52	2" x 100' Sterilization Tubing	\$6.99/roll	\$6.29/roll
C-ST53	3" x 100' Sterilization Tubing	\$7.99/roll	\$7.19/roll
C-ST54	4" x 100' Sterilization Tubing	\$9.99/roll	\$8.99/roll
C-ST56	6" x 100' Sterilization Tubing	\$22.99/roll	\$20.69/roll
C-ST59	9" x 100' Sterilization Tubing	\$26.99/roll	\$24.29/roll
C-ST512	12" x 100' Sterilization Tubing	\$43.99/roll	\$39.59/roll

Tubing is transparent on the top side allowing you to identify items in each package, and superior medical-grade paper that allows for sterilization penetration. Our high quality tubing comes with EO Gas and Steam Indicators for the sterilization process.

Dry Heat Sterilizer Pouches

Class 1 Dry Heat Sterilization Pouches		1-4 BOXES	5+ BOXES
C-SPD0210	2" x 10" Nylon Pouch, 100/box	\$31.75/bx	\$28.57/bx
C-SPD0310	3" x 10" Nylon Pouch, 100/box	\$33.75/bx	\$30.38/bx
C-SPD0410	4" x 10" Nylon Pouch, 100/box	\$35.75/bx	\$32.18/bx
C-SPD0710	7" x 10½" Nylon Pouch, 100/box	\$44.75/bx	\$40.28/bx
C-SPD0913	9½" x 13" Nylon Pouch, 100/box	\$46.75/bx	\$42.08/bx

The self-seal clear nylon pouches each include Class 1 chemical indicators. Easy peel-and-seal folding tab.

Steri-SURE™ Dry Heat Sterilizer Bags

Class 1 Dry Heat Bags		1-4 BOXES	5+ BOXES
C-DHB2	2½" x 1½" x 10½" Sterilizer Gusset Bg, 250/bx	\$55.99/bx	\$50.39/bx

The Steri-SURE™ paper sterilization bags each include Class 1 chemical indicators.

Dry Heat Sterilization Tubing

For Dry Heat & Chemical Vapor Sterilization

Dry Heat Nylon Sterilization Tubing		1-4 ROLLS	5+ ROLLS
C-STDH2	2" x 100' Dry Heat Nylon Tubing	\$8.95/roll	\$8.05/roll
C-STDH3	3" x 100' Dry Heat Nylon Tubing	\$9.95/roll	\$8.95/roll
C-STDH4	4" x 100' Dry Heat Nylon Tubing	\$13.95/roll	\$12.55/roll
C-STDH6	6" x 100' Dry Heat Nylon Tubing	\$19.95/roll	\$17.95/roll

A clear, strong, puncture resistant, reusable autoclave tubing available in four different widths that can be cut to accept any instrument length. A strong, reliable seal is formed when used in conjunction with a heat sealer (see below). Nylon tubing is available specifically for use in Dry Heat and Chemical Vapor sterilizers.

Sterilization Tubing Heat Sealer

Sterilization Tubing Heat Sealer		1 EACH
ST-HS8	Heat Sealer, 110V, 8" (20cm) wide, 1 each	\$299.00/ea

This sealer creates an air and watertight seal on sterilization rolls (paper-plastic) and sterilization tubing (plastic-plastic) materials. This compact unit has a built-in warning alarm which notified the user when each seal is complete. The seal produced is an embossed, honeycomb texture ⅜" (10mm) wide. This medical impulse sealer is designed especially for the Health Care Professionals, that require wider and stronger seals.

Sterilization Tubing Dispenser

Sterilization Tubing Dispenser		1 EACH
C-STDR6	Tubing Dispenser, 1 ea (Holds 2 rolls, and up to 6" wide)	\$39.00/ea
C-STDR10	Tubing Dispenser, 1 ea (Holds 3 rolls, and up to 10.5" wide)	\$49.00/ea

This dispenser fits all sterilization tubing core sizes, from 1" - 3" in diameter. The suction-cup feet secure the dispenser to the table.

Labellex™ Label Dispensers

TIP

Tip from the pros: If your office has more than one sterilizer, use a dispenser for each sterilizer, with coordinating colored labels.

ASK ABOUT OUR LABEL DISPENSER TRADE-IN PROGRAM!

Receive **50% OFF** any Labellex dispenser by trading in your used dispenser of another brand! Ask us how today.

SAVE ON YOUR LABEL REFILLS!
AS LOW AS \$8.45/ROLL

Label Dispensers		1-2 DISPENSERS	3+ DISPENSERS
L-X20-R	RED Labellex Dispenser	\$195.00/ea	\$175.75/ea
L-X20-B	BLUE Labellex Dispenser	\$195.00/ea	\$175.75/ea

L-Z20-IR	Ink Rolls for Black Labellex Disp., 5/pk	\$26.00/pk	\$23.40/pk

The perfect system to organize and track your sterilized bags. Great for any size office. Try out our user-friendly, long-lasting, high quality label dispenser today!

EFFORTLESS

Save the tediousness of handwriting the date, time, load number and tray number on every pouch. With a click of the button your job is done!

SAVE YOUR PRACTICE TIME

No more handwriting your information onto your packs! Save yourself and your staff time by automating your practice!

TRACEABILITY

If a sterilization error occurs, sterilized packs or pouches can be easily traced, from the sterilizer to the patient's records!

EASY TO LOAD

This dispenser is notably easier to load than other dispenser brands. We also include a user-friendly instruction guide with your order.

QUALITY

Labellex™ dispensers are built to last. All dispensers and labels are made in Italy. Strong label adhesive keeps label in place during and after sterilization.

COVERED

All label dispensers come with a 2-year warranty* and will be replaced at no cost to you. We stand behind our quality products!

LOW COST

Our label dispensers are reasonably priced and are considerably lower than most leading dispenser brands. The dispenser refills are cost-efficient; as low as **\$8.45 for 1,000 labels!**

EASY IDENTIFICATION

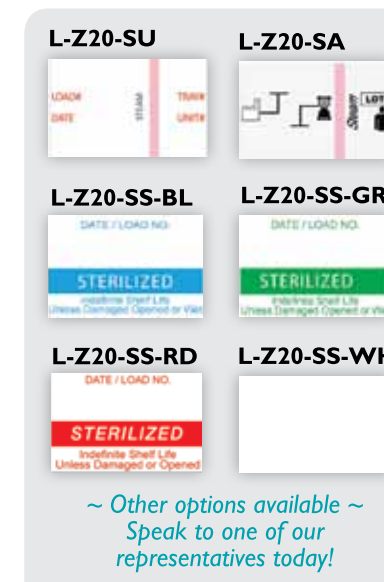

Easy to identify which dispenser belongs to each sterilizer! Three colors available.

DuralineSystems.com

*under normal use conditions and with the continued purchase of label refills from Duraline Systems.

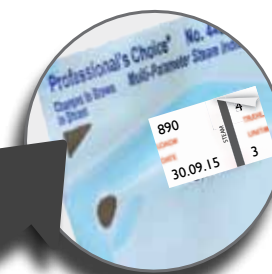

Is your practice compliant with OSHA & CDC guidelines?

"...The packaging units are to be kept as small as possible and provided with labels indicating the contents, date of sterilization, use-by date, batch number, and sterilization indicator."

Source: Centers for Diseases Control and Prevention (CDC)

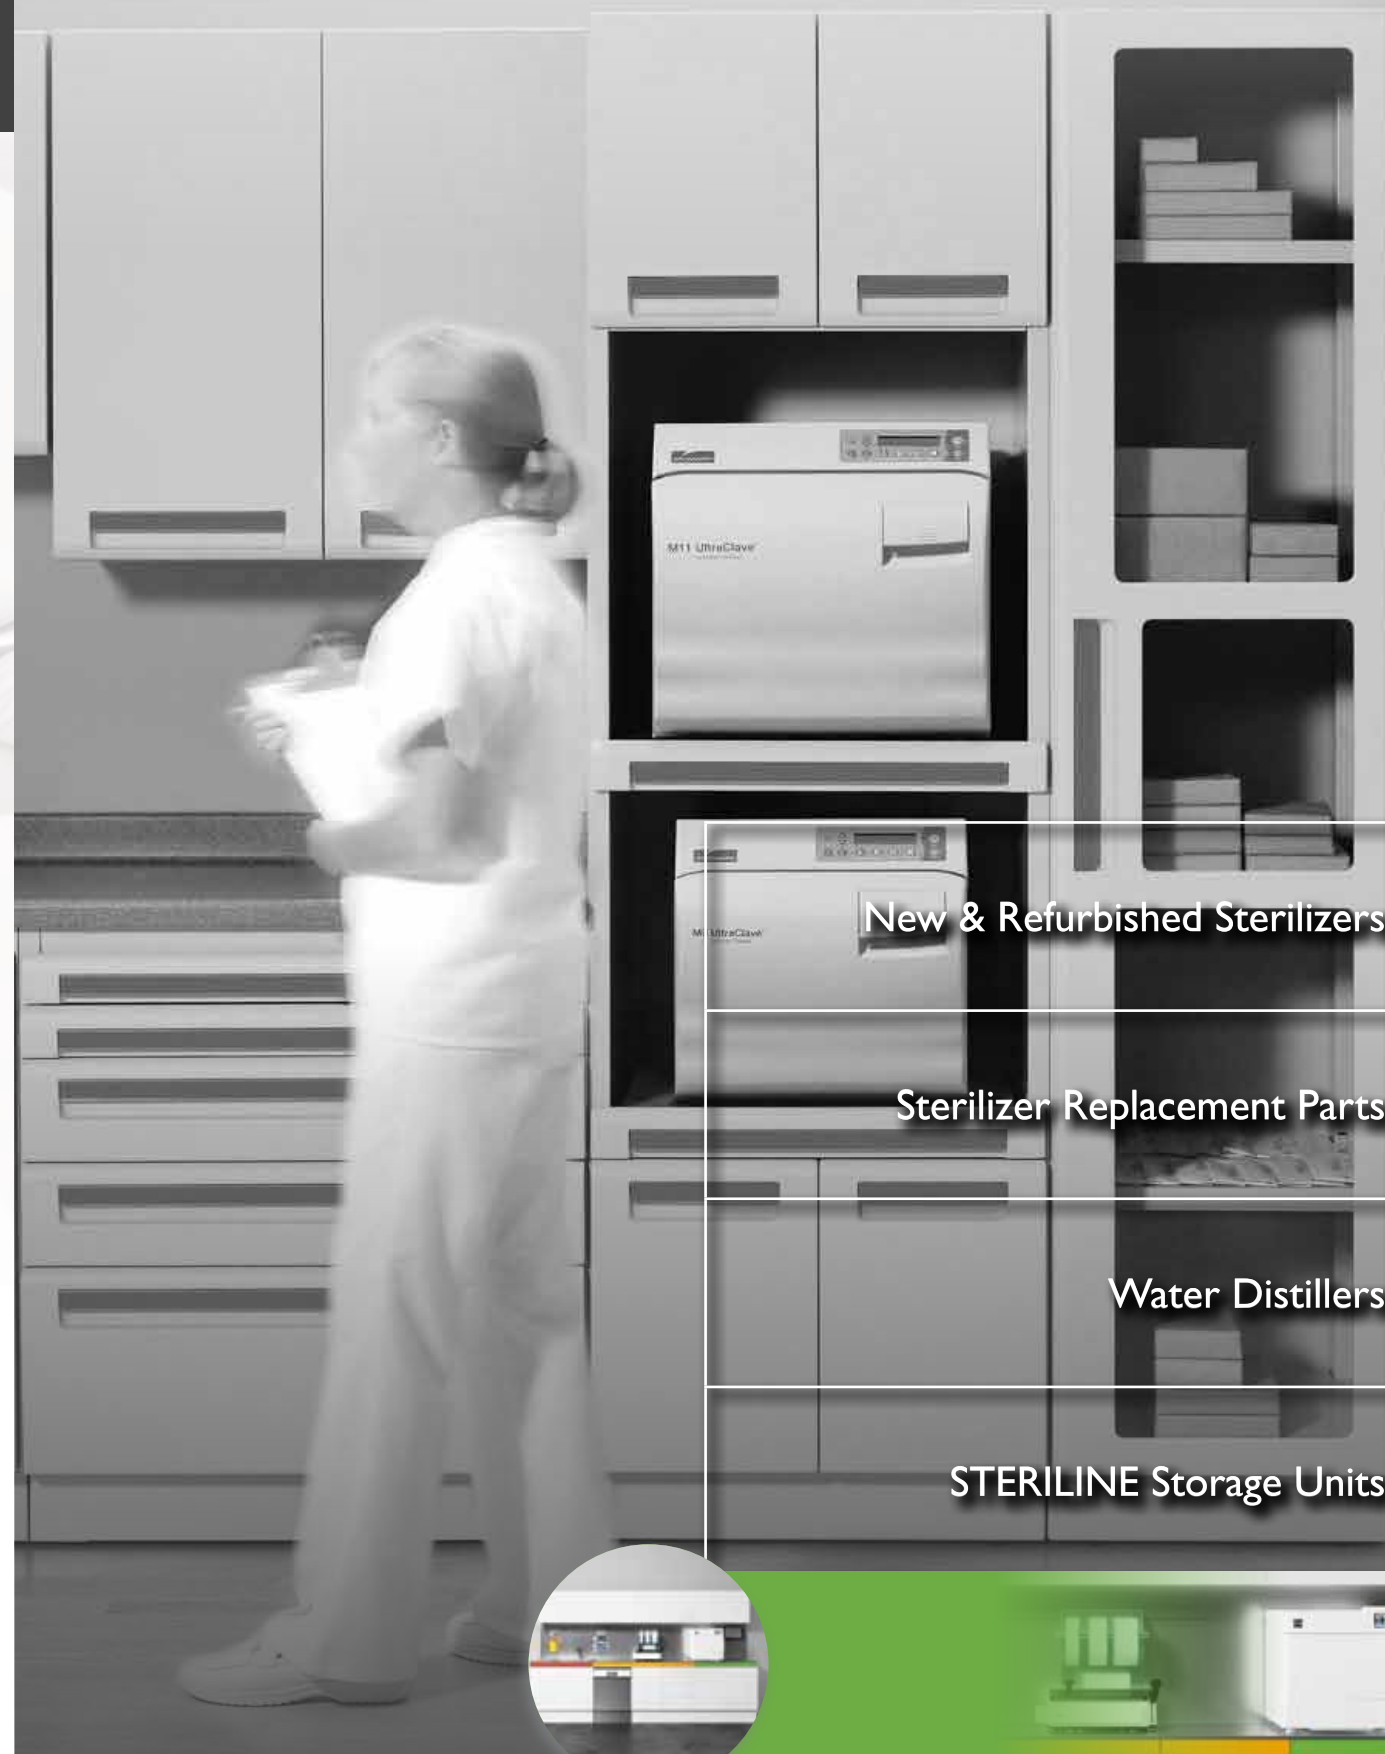

THE Labellex™ SOLUTION:

Reduce risk liability and protect your practice.
 If your sterilizer fails, know which instruments to recall. Efficiently.
 Encourages staff accountability and allows for item tracking of sterilized goods; to trace sterilization errors back to the patient (or vice-versa)."

How important is traceability to you?

The most critical part of "Clean To Sterile".

STERILIZATION TO STORAGE

Need to replace your current sterilizer(s) but don't want to pay the price for a new unit?

We get that! That's why our Refurbished Sterilizers offer the same quality and performance from the brands you trust, at a better savings for you. We are passionate about every sterilizer we refurbish. We believe in our work, which is why our refurbished sterilizers come with a parts and labor warranty. They are refurbished by a qualified technician - for up to half the price of a brand new unit.

After

Before

What does a Refurbished Sterilizer include?

- Complete Disassembling of the Autoclave
- Defective and/or Questionable Parts disposed of
- Frame/Chassis sanded and painted if needed
- Chamber cleaned free of dirt & mineral buildup
- Reservoir cleaned to perform like new
- All O-Rings, Gaskets, Seals, Filters replaced
- Valves & Switches replaced as needed
- Complete Re-assembling
- Hinges, Latches, moving parts are lubricated
- Wire checked for shorts or ground leakage
- Plumbing inspected for water or pressure leaks
- Put thru QC (Quality Control)
 - Tested by Factory Trained Technician
 - Calibrated to Mfg. Specifications
 - Closely inspected for any abnormalities
 - Spore Tested
 - Labeled and Documented
- Fitted with Rack, Trays, & Operators Manual
- Bubble wrapped & double boxed for shipment

ALL STERILIZER BRANDS REPLACEMENT DOOR GASKETS AVAILABLE!

Don't see your sterilizer model listed here? Call (877) 561-0500.

Replacement Door Gaskets

Contact a representative today to determine which gasket is compatible with your sterilizer. Verify with your sterilizer manufacturer how often they recommend replacing the door gasket on your sterilizer model. It is one essential and critical part of ensuring sterility of your instruments.

STERILIZER TIP: We recommend changing your sterilizer door gasket minimally of once a year to ensure there is no pressure loss in the chamber, which causes sterilizer failure. Check your sterilizer manual for manufacturer's recommendations.

DID YOU KNOW
Leaky door gaskets are a common cause of failed spore tests?

	CROSS-SECTION	STOCK NO.	STERILIZER MAKE & MODEL	OEM#	SIZE	1+ EACH

Duraclean Sterilizer Cleaner

Duraclean Autoclave Cleaner		1-2 BOXES	3+ BOXES
C-SCDURA	32 Ounce Bottle, 4 bottles/box	\$60.00/bx	\$54.00/bx

32 oz. bottle concentrate. Used to clean grease and grime from autoclaves and retards the accumulation of scale deposits. Mix 6 oz. with 64 oz. of distilled water. One 32 oz. bottle per 5 cleanings. Compares to Omni-Cleaner™.

Chamber Brite™ Sterilizer Cleaner

Chamber Brite™ Sterilizer Cleaner		1-2 BOXES	3+ BOXES
C-SCCHBR	Chamber Brite™, 10 packs/box	\$82.50/bx	\$74.25/bx

Manufactured by Tuttnauer™, these powdered autoclave cleaner come in pre-measured packs. They are designed specifically for Gravity Steam sterilizers. Effectively cleans and de-scales the reservoir chamber. Easy-to-use! Chamber Brite™ is not intended for use with any pre/post vacuum sterilizers.

Tutt-Clean™ Sterilizer Cleaner

TUTT-CLEAN™ Sterilizer Cleaner		1-2 BOXES	3+ BOXES
C-TCLEAN	TUTT-CLEAN™ Cleaner, 10 packs/box	\$55.00/bx	\$49.50/bx

Designed for use in gravity-type autoclaves. TUTT-CLEAN™ is a mild acidic salt cleansing compound formulated for descaling and removal of water deposits, oxides and other sediments from sterilizers. Always follow equipment manufacturer's instructions and recommended maintenance schedules. TUTT-CLEAN™ is not intended for use with any pre/post vacuum sterilizers.

Note: Comparable to Chamber Brite™, by Tuttnauer™.

Mid-Clean™ Sterilizer Cleaner

Mid-Clean™ Sterilizer Cleaner		1-2 BOTTLES	3+ BOTTLES
C-MCLEAN	Mid-Clean™ Cleaner, 16 oz. bottle	\$32.00/btl	\$28.80/btl

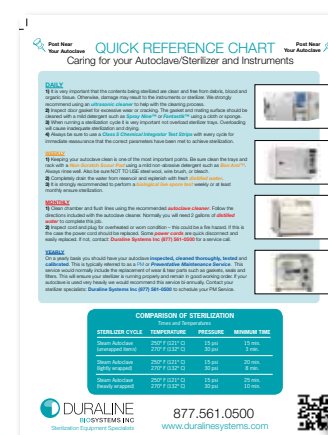

MID-CLEAN™ is a multi-purpose, slightly alkaline, mild solution developed to remove grease and grime from sterilizers. Used as directed, MID-CLEAN™ will also retard the accumulation of scale deposits. Always follow equipment manufacturer's instructions and recommended maintenance schedules. MID-CLEAN™ is intended to be used in all Midmark® sterilizers.

Sci-Dry™ Sterilizer Cleaner

SCI-DRY™ Statim Cleaner		1-2 BOTTLES	3+ BOTTLES
C-SD2	Sci-Dry™ 2 oz. Spray Bottle	\$29.00/btl	\$26.10/btl
C-SD16	Sci-Dry™ 16 oz. Refill Bottle	\$59.00/btl	\$53.10/btl

SCI-DRY™ is designed to protect stainless steel instruments and will promote even coating of water on the internal surfaces of the cassette without beading. This will reduce spotting on the cassette as well as on the instruments. SCI-DRY™ is intended to be used with all SciCan® cassette sterilizers including models 2000, 5000 and 7000.

How to Care for Your Autoclave or Steam Sterilizer

Caring for your autoclave is very important and can be easily overlooked. We often see this step neglected which can cause high and frequent repair costs. A lack of maintenance will also lead to deterioration and excessive wear of the contents being sterilized. Here's a few points to make caring for your autoclave or steam sterilizer easier for you.

CONTACT US FOR A FREE LAMINATED POSTER TO PLACE NEXT TO YOUR STERILIZER!

DAILY

- 1) It is very important that the contents being sterilized are clean and free from debris, blood and organic tissue. Otherwise the instruments or sterilizer may become damaged. Instruments cannot be sterilized if they are not clean. We strongly recommend using an ultrasonic cleaner to help with the cleaning process.
- 2) Inspect the door gasket for excessive wear or cracking. The gasket and mating surface should be cleaned with a mild detergent such as Spray Nine™ or Fantastik™ using a cloth or sponge.
- 3) When running a sterilization cycle it is very important to not overload the sterilizer trays because it will cause inadequate sterilization and drying.
- 4) Always be sure to use a Class 5 Chemical Integrator Test Strip with every cycle for immediate reassurance that the correct parameters have been met to achieve sterilization.

MONTHLY

- 1) Clean the chamber and flush lines using the recommended autoclave cleaner following the cleaner's instructions. Normally you will need 2 gallons of distilled water to do this.
- 2) Inspect the cord and plug for overheating and excessive wear—this could be a fire hazard. If this is the case, the power cord should be replaced. Some power cords are quick disconnect and easily replaced. If not, the replacement will need to be done by a certified repair company.

WEEKLY

- 1) Keeping your autoclave clean is very important. Be sure to clean the trays and rack with a Non-Scratch Scour Pad using a mild non-abrasive detergent such as Bon Ami™. Always rinse the instrument well and be sure to NOT USE steel wool, wire brush, or bleach.
- 2) Completely drain the water from the reservoir and replenish with fresh distilled water.
- 3) It is strongly recommended to perform a biological live spore test weekly as per CDC guidelines.

YEARLY

On a yearly basis you should have your autoclave inspected, cleaned thoroughly, tested and calibrated. This is typically referred to as a PM or Preventative Maintenance Service. This service would normally include the replacement of wear & tear parts such as gaskets, seals and filters. This will ensure your sterilizer is running properly and remaining in good working order. If your autoclave is used very heavily we would recommend this service bi-annually.

Following these guidelines will extend the life of your autoclave and instruments. Refer to your operator's manual for more details.

Tuttnauer 1-Gallon Water Distiller

KEY FEATURES:

- Manual Fill – No Water Hookups
- Distillate Capacity – 1 Gallon (3.97L) in 4.5 Hours (Up to 5 Gallons in 24 Hours)
